Notes to the financial statements

1 Basis of preparation

The financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRS") issued by the Hong Kong Institute of Certified Public Accountants. The financial statements are prepared under the historical cost convention, as modified by the revaluation of investment properties and available-for-sale financial assets which are measured at fair value.

(a) Change in accounting policy

In the current year, the Group changed its accounting policy of land use rights included in properties held for/under development and completed properties held for sale. These land use rights meet the definition of both inventories under HKAS 2 "Inventories" and leasehold land under HKAS 17 "Leases". Previously, these land use rights were classified as prepaid operating leases which were amortised on a straight-line basis over the period of the lease in accordance with HKAS 17. Such amortisation was capitalised as part of the cost of properties under development during the course of development. With the change of the accounting policy, these land use rights are classified as inventories in accordance with HKAS 2 and are measured at the lower of cost and net realisable value.

Management believes that the classification of land use rights as inventories can result in a more relevant presentation of the financial position of the Group, and of its performance for the year. The revised treatment reflects management's intent regarding the use of the land use rights and results in a presentation consistent with industry practice.

The change in accounting policy has no material impact on the retained profits as at 1st July 2008 and 30th June 2009, and the profit for the current and prior years.

(b) The adoption of new or revised HKFRS

For the year ended 30th June 2009, the Group has early adopted HKFRS 3 (Revised) "Business Combinations" and HKAS 27 (Revised) "Consolidated and Separate Financial Statements" which were prospectively applicable for the accounting periods beginning on or after 1st July 2009.

In the current year, the Group has adopted the following new or revised standards, amendments to standards and interpretations which are mandatory for the financial year ended 30th June 2010:

In addition, the Group has early adopted HKAS 32 Amendment "Financial Instruments: Presentation – Classification of Rights Issues" which is effective for accounting periods beginning on or after 1st February 2010.

The effects of the adoption and early adoption of these new or revised standards, amendments and interpretations are detailed below:

HKAS 1 (Revised) - Presentation of Financial Statements: The standard requires all non-owner changes in equity (i.e. comprehensive income) to be presented in a single statement of comprehensive income or in two statements (a separate income statement and a statement of comprehensive income). The Group has chosen to adopt the two statements approach and a new consolidated statement of comprehensive income is included after the consolidated income statement in the financial statements for the year ended 30th June 2010.

HKFRS 7 Amendments – Financial Instruments: Disclosures – Improving Disclosures about Financial Instruments: These amendments enhanced disclosures about fair value measurement and liquidity risk. In particular, the amendments require disclosure of fair value measurement hierarchy. The Group has included the relevant information in the consolidated financial statements.

HKFRS 8 - Operating Segments: HKFRS 8 replaces HKAS 14 - Segment Reporting. The new standard uses a 'management approach', under which segment information is presented on the same basis as that used for internal reporting purposes. The adoption of HKFRS 8 does not have any significant changes to the Group's reportable segments.

HKAS 40 Amendments - Investment property: The Group adopted these amendments with prospective application from 1st July 2009. Properties being constructed or developed for future use as investment properties are brought within the scope of HKAS 40 and are reclassified from properties under development at 1st July 2009 at their carrying amounts and are measured at fair value.

HKAS 32 Amendment - Financial Instruments: Presentation - Classification of Rights Issues: The offer of rights issue of the Company which is denominated in currency other than the functional currency of the Company is no longer accounted for as a derivative liability but is classified as equity of the Company. As a result, there is no longer any change in fair value of the derivatives to be recognised in the consolidated income statement.

The effects of the changes following the adoption and early adoption of the relevant new or revised accounting standards on the consolidated income statement for year ended 30th June 2010 are as follows:

The adoption of other revised standards, amendments and interpretations does not have a significant effect on the results and financial position of the Group.

(c) Standards, amendments and interpretations which are not yet effective

The following new or revised standards, amendments and interpretations are mandatory for accounting periods beginning on or after 1st January 2010 or later periods but which the Groups has not early adopted:

Effective for the year ending 30th June 2011

HKFRS 1 Amendment	Additional Exemption for First-time Adopters
HKFRS 1 Amendment	Limited Exemption from Comparative HKFRS 7
	Disclosures for First-time Adopters
HKFRS 2 Amendment	Group Cash-settled Share-based Payment

Effective for the year ending 30th June 2012 or after

Financial Instruments
Related Party Disclosures
Prepayments of Minimum Funding Requirement
Improvements to HKFRSs 2010

The Group has already commenced an assessment of the impact of these new or revised standards, amendments and interpretations, certain of which are relevant to the Group's operation and will give rise to changes in presentation, disclosures and measurements of certain items in the financial statements.

2 Revenues and segment information

The Group is principally engaged in investment in and development of property projects in the People's Republic of China (the "PRC"). Revenues comprise turnover which include gross proceeds from sale of properties, revenue from rental and hotel operation, property management services fee income, project management fee income and hotel management services fee income.

	2010	2009
	HK\$'000	HK\$'000

Project management fee income	19,943	20,190
Hotel management services fee income	16,729	_
	6,340,752	2,038,623

The chief operating decision-maker has been identified as the executive committee. This committee reviews the Group's internal reporting in order to assess performance and allocate resources. Management has determined the operating segments based on these reports.

The committee considers the business from the perspective of the services and products. The management assesses the performance of property sales, rental operation, hotel operation, property management services and hotel management services operations. Other operations include ancillary services in property projects.

The executive committee assesses the performance of the operating segments based on a measure of attributable operating profit before finance costs and taxation charge. This measurement basis excludes the effects of changes in fair value of investment properties, gains and losses from changes in group structure, impairment and expenses and income at corporate office. Interest income is included in the result of each operating segment that is reviewed by the executive committee.

Sales between segments are carried out in accordance with terms agreed by the parties involved. The revenue from external parties reported to the executive committee is measured in a manner consistent with that in the consolidated income statement.

Segment assets consist primarily of property, plant and equipment, investment properties, land use rights, properties held for/under development, goodwill, prepayments, debtors and other receivables, amounts due from related companies, completed properties held for sale and non-current assets held for sale. They exclude cash and bank balances, available-for-sale financial assets and prepayment for proposed development projects held

and managed at corporate office. These are part of the reconciliation to total assets on the statement of financial position.

Segment liabilities comprise mainly creditors and accruals, deposits received on sale of properties and amounts due to related companies. They exclude bank and other borrowings, deferred tax liabilities, taxes payable, other creditors and accruals at corporate office. These are part of the reconciliation to total liabilities on the statement of financial position.

The majority of the assets and operations of the Group are located in the PRC. Revenues are mainly derived from the PRC. Non-current assets other than financial instrument are mainly located in the PRC.

BUSINESS REVIEW

During the year under review, the China property market continued to recover since the second quarter of 2009, benefited from the policy-led surge in liquidity to maintain China economic growth. Riding on the continuing revival of property market, the Group's contracted sales secured during the year was boosted to 1,316,592 sq.m. gross floor area ("GFA") with gross sales proceeds of RMB10.2 billion, representing a year-on-year increase in volume of 141% and over 164% surge in sales proceeds compared to the contracted sales secured in the corresponding period last year when the property market was severely dampened by the 2008 global economic downturn. Of the contracted sales secured during the year, approximately 491,000 sq.m. with gross sales proceeds of approximately RMB3.9 billion are for those projects scheduled to be completed within the next 12 months and their corresponding sales revenues shall be recorded in the consolidated income statement of FY2011.

During FY2010, the Group recorded a net profit of HK\$2.6 billion, a year-on-year increase of 94% from net profit of HK\$1.4 billion achieved in FY2009. The Group's core attributable operating profit ("AOP") from core business operations recorded a substantial increase of 95% to HK\$1.8 billion against AOP of HK\$0.9 billion recorded last year. The significant increase in AOP was mainly attributable to a substantial boost in recorded sale of property and improvement in hotel operating results.

During the year under review, the Group recorded a substantial increase in property sales volume by 120% to 1,039,224 sq.m. as compared to the corresponding period last year. The Group's strategic move to invest in mid-western China has seen positive contribution to the Group's overall property sales performance where approximately 36% of the recorded sales came from these second-tier cities where the property prices are reasonably affordable to the mass population of those cities. With the completion of property projects in eight cities during the year, a more balance sales distribution covering first and second-tier cities was recorded compared to the corresponding period last year.

It has been the Group's strategic plan to buy out the remaining interests in projects being held by minority shareholders and joint venture partners for enhancing project planning, increasing project management efficiency and control. In line with this strategic direction, the Group has undergone various buyout exercise in which the Group has during the year completed the acquisition of additional interests in five property development projects, namely Shanghai Zhongshan Square, Guangzhou Park Paradise, Guangzhou Covent Garden, Tianjin Nanshi Lot#202 and Tianjin Xin Chun Garden which were held by Shanghai Trio Property Development Co., Ltd., Guangzhou Jixian Zhuang New World City Garden Development Limited, Guangzhou Fong Chuen–New World Property Development Co., Ltd., Tianjin New World Properties Development Co., Ltd. and Tianjin New World Housing Development Limited respectively. As required by the accounting standard of business combinations, these acquisitions were remeasured at their fair value upon the Group's acquisition, giving rise to an aggregate net gain on previously held interests of HK\$1.3 billion and negative goodwill on acquisition of HK\$0.7 billion. These favourable gains in effect untapped the Group's intrinsic value and reflected true value of its high potential land reserve.

Property sales

During the year under review, the Group's property sales operation achieved an AOP of HK\$1,450.1 million, an increase of 145% against FY2009. Benefited from the significant market rebound in the China property market since April 2009 as a result of the positive effects from series of economic stimulus measures implemented by the PRC government and the increase in completion and contracted sales, the Group's recorded property sales in terms of GFA surged over 120% to 1,039,224 sq.m., generating gross sales proceeds of over RMB8.0 billion. However, the AOP from property sales did not increase in the same magnitude as over one-third of projects completed and sold during the year under review were lower-priced residential units located in second-tier city such as Chengdu, Changsha and Guiyang compared to recorded sales of higher-end properties completed from Guangzhou region last year. The overall gross profit margin achieved during the year under review dropped by 6% comparing to FY2009. Apart from the differences in sales mix between the two years, the effect from recognising the fair value adjustment in costs of sales of certain projects which additional interests were recently acquired also attributable to the decrease in overall gross profit margin during the year.

In FY2010, the Group has completed 11 property development projects in Beijing, Wuhan, Changsha, Chengdu, Guangzhou, Guiyang, Huizhou and Shunde with a total GFA of 734,939 sq.m., representing a 7% increase year-on-year.

Rental operation

In FY2010, the Group's rental operation recorded an AOP of HK\$489.6 million, a slight increase compared to FY2009. The continuing improvement in occupancy rates of various office premises during the year, particularly prominent for Wuhan New World Centre and Wuhan New World International Trade Tower lead to a marked increase in AOP from rental operation. The marked increase in AOP from office premises in Wuhan region had been diluted by the effect from the reduction of turnover rent rate upon renewal of tenancy at Beijing New World Centre shopping mall and decrease in rentable area of service apartment and office space at Beijing New World Centre upon sales. The pre-matured operating results and high pre-operating expenses incurred for Dalian The Galleria, Wuhan K11 Gourmet Tower, Beijing Baoding Building which commenced business during the year under review had negative contribution to AOP from rental operation.

During the year under review, the Group's investment property portfolio has increased by 141,498 sq.m., mainly from the completion of retail space and carparks in Beijing, Wuhan, Changsha and Guangzhou.

Hotel operation

During the year under review, the AOP from hotel operation recorded at a loss of HK\$97.7 million as opposed to a loss of HK\$122.5 million in the corresponding period last year. The significant improvement in operating results from hotel operation was attributable to the continuing growth in hotel performance and gross operating profit of the Group's hotels.

The Group's hotel portfolio currently comprises seven hotels with 2,547 rooms.

Hotel management services

During the year under review, the AOP from hotel management services recorded at a profit of HK\$6.6 million as opposed to a loss of HK\$21.0 million in FY2009. The improved AOP in hotel management services was mainly due to an exceptional income derived from early termination of hotel management contract of L'Arc New World Hotel Macau.

OUTLOOK

After years of development, China is no longer an isolated island in the ocean. China is now closely connected to other economies in the world. Tickling of any global economic fiber will ripple to the domestic system in China. Therefore, the Central Government has to carefully devise policies under the strong tides of ups and downs in the global market.

The world has gone through doldrums of US financial crisis, rebounds arising from wide spread liquidity, concerns of possible double-dip triggered by European credit crunch and US slowdown. Though China is still having satisfactory export figures, the market anticipates a slowdown of trading in the coming months. Consequently, some worry that too early a cooling down may trigger an unstoppable recession. Having said that, the recent signs of domestic property market rebound drag the central government into a difficult situation. Some suggest that the Central Government should immediately retract those previously imposed stimulus policies to avoid bubble formation.

In the short term, the market is full of uncertainties. The Group expects that the Central Government will continuously adjust the policies according to the domestic situation and the global economic development. In fact, to ensure a healthy development of the property market is one of the highlights of the Government. Overall, the Group is cautiously optimistic about Mainland China property market. We will continue our plan according to the good side of the market. At the same time, the Group also holds a prudent approach in managing its business to avoid those risks tripped quite a number of China developers in 2007 and 2008.

Assessing the domestic property market, on a comparable basis, the Group sees more potential in the second-tier and third-tier cities. The Group pioneered geographic diversification to enter cities such as Chengdu, Changsha and Guiyang, in several big moves back in FY2006. These new projects were first launch in 2009 and have commenced profit recognition since then. Though the average prices and margins of the first phase of these new projects are lower than those in first-tier cities, the Group expects them to become more and more promising in the subsequent phases.

The Group currently has a sizeable investment portfolio comprising of over 2 million square meters. In FY2010, this portfolio has produced an attributable operating profit of HK\$489.6 million. While our peers are still struggling to build up their rental portfolio, NWCL had already utilised these resources to weather the bad time in 2008.

In FY2011, the Group plans to complete 10 projects with a total GFA of 1,376,306 sq.m..

LIQUIDITY AND CAPITAL RESOURCES

As at 30th June 2010, the Group's cash and bank deposits amounted to HK\$7,976 million (30th June 2009: HK\$3,901 million). The increase in cash and bank deposits was mainly due to strengthening of the Company's capital base. During the year, the Company issued 1,918,584,241 shares of HK\$0.10 each at HK\$2.55 per rights share by way of rights issue on the basis of one rights share for every existing two shares. The net proceeds will be used to refinance existing borrowings and debts, including the possible redemption or repurchase of outstanding convertible bonds. In June 2010, the Group redeemed a total principal amount of RMB2,218,800,000 of convertible bonds.

The Group's consolidated net debt (aggregate of borrowings, net of cash and bank balances) amounted to HK\$10,435 million (30th June 2009: HK\$13,187 million), translating into a gearing ratio of 26% (30th June 2009: 41%). The gearing ratio is calculated on the basis of net debts over total equity.

The Group's borrowings from banks and fellow subsidiaries and liabilities of convertible bonds as at 30th June 2010 totalled HK\$16,672 million (30th June 2009: HK\$16,017 million) of which 20% were secured by way of charges over assets and 80% were unsecured.

The maturity profile of the Group's borrowings from banks and fellow subsidiaries and liabilities of convertible bonds is set out as follows:

	2010	2009
	HK\$'million	HK\$'million
Repayable:		
Within one year	2,335	5,971
Between one and two years	7,430	2,544
Between two and five years	4,927	7,502
Over five years	1,980	
Total	16,672	16,017

The Group's share of capital expenditure commitments of a jointly controlled entity amounted to HK\$12,843,000 (30th June 2009: Nil). The sources of funding for capital commitments are internally generated resources and bank loan facilities.

Foreign currency exposure

The Group conducts its business mainly in Renminbi. Other than certain bank balances and borrowings denominated in Hong Kong dollar and United States dollar, the Group does not have any material direct exposure to foreign exchange fluctuations. During the year under review, the Group has not used any foreign currency derivative product to hedge its exposure to currency risk.

CONTINGENT LIABILITIES

As at 30th June 2010, the Group has contingent liabilities of approximately HK\$2,340,179,000 (30th June 2009: HK\$3,207,018,000) relating to corporate guarantees given in respect of bank loan facilities extended to certain jointly controlled entities.

As at 30th June 2010, the Group had provided guarantees in respect of mortgage facilities granted by certain banks relating to the mortgage loans arranged for certain purchasers of properties developed by certain subsidiaries of the Group amounting to HK\$1,654,666,000 (30th June 2009: HK\$753,543,000).
